

2022 CLEAN ENERGY POLLING

Minnesota Poll¹

of Minnesota voters agree with² supporting an “all of the above” energy strategy focused on lowering heavy dependence on fossil fuels.

of voters state it's important that³ a candidate for political office supports clean energy initiatives.

of voters favor the government⁴ taking steps to reduce emissions.

National Poll

of voters prefer clean energy⁵ production through market and business approaches over government mandates and quotas.

of voters say they would vote⁶ for an elected official who supports clean energy development.

of voters support the government⁷ taking action to accelerate clean energy in the US.

MN Survey Participant Ideology Very Conservative: 18% | Somewhat Conservative: 21% | Moderate: 16%

¹ Survey of 600 voters across the state of Minnesota

² Poll question: Please indicate whether you agree or disagree with this statement: Minnesota should pursue an all-of-the-above energy strategy, which means lowering our heavy dependence on fossil fuels over time and allowing an increase in electricity generation from renewable energy sources as well as more energy efficiency, and I support taking action to accelerate the development and use of clean energy in Minnesota.

³ Poll question: How important is it to you that a candidate for political office supports clean energy initiatives?

^{4,7} Poll question: Do you favor or oppose the government taking steps to reduce emissions of gases like carbon dioxide and methane emissions that cause global climate change?

⁵ Poll question: To increase clean energy production, would you prefer 1) Approaches like competition that allow markets and businesses to provide more clean energy production, 2) Government mandates, subsidies and quotas, or 3) A price or tax put on carbon emissions?

⁶ Poll question: Thinking ahead to future elections...would you vote for or against elected officials or candidates who support clean energy development like solar and wind, or would it make no difference to your vote?

EMBRACE CLEAN ENERGY.
